

7XD HOLDER FOR DEEP HOLE DRILLING

7XD HOLDER FOR DEEP HOLE DRILLING WITH IMPROVED MODULAR HEAD COOLANT SYSTEM

- One drilling head covers various drilling depths: 3xD, 5xD, 7xD
 - 7xD drill diameter range: 26-41 mm
 - Through-coolant hole system •

GOLD TWIN 7XD DRILL HOLDER

General Information

The **GoldTwin** family now includes a 7XD holder for better stability in deep hole drilling.

GoldTwin product line has been expanded with a new 7xD holder that allows for deeper hole machining with excellent machinability, hole quality and tool cost savings. End-users now have the option to drill various depths, such as 3xD, 5xD and 7xD, with one head.

In addition, a coolant flow channel aimed at the cutting edge has been added to the modular head to achieve higher stability machining and improved chip evacuation.

* The **GoldTwin** head with the new through-coolant system will keep the current product number designation and become available after the existing stock is exhausted.

Technical Features & Advantages

- One drilling head covers various drilling depths: 3xD, 5xD, 7xD
- 7xD drill diameter range: 26-41 mm
- Improved machining stability and tool life with through-coolant hole system

Head		Holder
	ЗхД	Drilling depth: 3xD
	5xD	Drilling depth: 5xD
	New 7xD	Drilling depth: 7xD

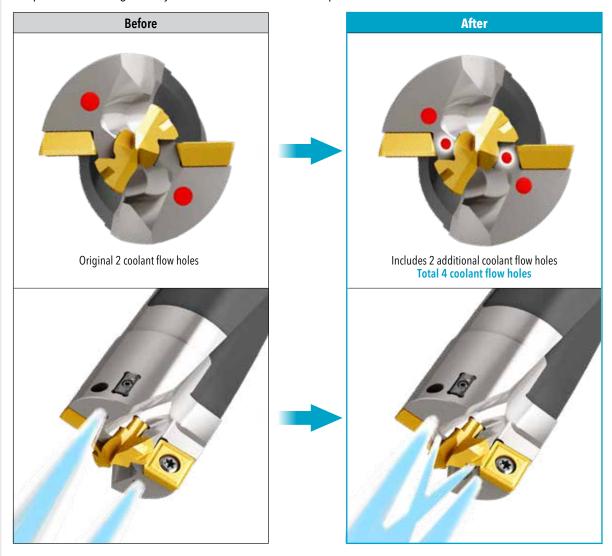

New Coolant Supply

Additional coolant flow channel aimed at the cutting edge

- Improved machining stability and tool life due to smooth chip evacuation
